

version: '3.8'

```
# =====
# Cloud Health Office - Local Development Stack
# =====
# Usage:
#   docker-compose up -d           # Start all services
#   docker-compose up -d portal fhir # Start portal + FHIR APIs only
#   docker-compose logs -f claims   # Follow claims service logs
#   docker-compose down           # Stop everything
# =====
```

services:

— Database —————
